EDUCATION

Manav Rachna University, Faridabad

B.Tech CSE | 2023 – 2027 | CGPA: 8.12/10

DPS, Mathura Road, New Delhi

Class 12 (CBSE) | 75.2% | 2023

DPS, Sector 19, Faridabad

Class 10 (CBSE) | 90% | 2021

INTERNSHIPS

IT Intern

Airports Authority of India (AAI) | June 2026 – July 2026

- Developed an AI-powered mobile application using React Native, Node.js, Express, MongoDB, and Gemini AI to convert study screenshots into structured notes using OCR.
- Implemented native Android screenshot detection, Tesseract.js OCR, JWT authentication, and ImageKit cloud storage for automated screenshot processing.
- Built AI-powered features including note summarization, flashcard & quiz generation, analytics dashboard, and secure backend APIs to enhance learning efficiency.

Web Developer Intern

Bharat Infraprojects Pvt. Ltd. | March 2026 – May 2026

- Developed and maintained the company website using WordPress, ensuring reliability and seamless functionality.
- Enhanced UI/UX, responsiveness, and overall website performance across devices.
- Managed live website updates, deployments, and frontend customizations to improve user engagement.

RESEARCH PAPER

Published research paper on Blockchain-based MFA security for mobile Banking

- Enhances mobile banking security using Blockchain-based MFA
- Prevents unauthorized access with decentralized authentication
- Uses smart contracts for secure and automatic verification

ACHIEVEMENTS

- Awarded CDC Recognition & Reward, outperforming 536+ participants — May 2026
- Completed multiple NPTEL certifications in Design Thinking and Social Media Security — October 2025
- Built and deployed AI-integrated applications using APIs and cloud-based services — March 2026

Interests

Chess, Traveling, Music, Exploring Emerging Technologies

SKILLS

- Programming Languages:** C++, JavaScript, Python, SQL
- Frontend Development:** React.js, HTML5, CSS3, Responsive Web Design
- Backend Development:** Node.js, Express.js, REST APIs, JSON, Firebase
- Databases:** PostgreSQL, Supabase, SQL, DBMS
- Version Control & Tools:** Git, GitHub, VS Code
- Core Computer Science:** OOP, Data Structures & Algorithms, Operating Systems, SDLC
- Software Development Practices:** Dialogflow, Gemini API, Problem Solving, Team Collaboration, Gemini API

PROJECTS

StudyLens – AI-Powered Mobile Study Companion

Tech Stack: React Native, Node.js, Express, MongoDB, Gemini AI, Tesseract.js, ImageKit

- Built an AI-powered mobile study app that converts screenshots into structured notes using OCR and Gemini AI.
- Developed native screenshot detection, automated OCR processing, and secure cloud storage for study materials.
- Implemented AI-generated summaries, flashcards, quizzes, and analytics with a scalable Express + MongoDB backend.

CampusPass – Multi-Role Campus Event Ticketing & Management System

Tech Stack: React, TypeScript, Node.js, Express, MySQL, Supabase, Tailwind CSS

- Built a multi-role campus event platform with JWT-based RBAC for Students, Organizers, and Admins.
- Developed QR-based event ticketing with free registrations and paid event verification.
- Designed a scalable Express + MySQL/Supabase backend with optimized state management and audit logging.

AI-Powered University Chatbot

Tech Stack: HTML, CSS, JavaScript, Node.js, Firebase, Dialogflow, Gemini API

- Engineered a hybrid AI chatbot leveraging Dialogflow NLP and Google AI Studio (Gemini) API for accurate intent detection and intelligent query resolution.
- Developed and deployed scalable real-time backend services using Firebase Cloud Functions.
- Optimized system performance, response efficiency, and scalability, enhancing overall user experience.

TRAININGS & CERTIFICATIONS

- Quick Heal Academy – Linux Fundamentals Certification
- MongoDB Data Modeling Path
- Cisco Networking Academy — JavaScript Essentials Certification
